

Revival

Chris McClarney

Only You
Only You can heal our land
Only You
Only You can make things right again

Come chase our wandering hearts
These prodigals we are
Don't wait
Don't wait

Open up the heavens
Pour out Your presence
We want to see revival
Bring us back to You
Oh, how we need You to
We want to see revival

Only You
Only You make darkness shake
Only You
Only You can make dry bones awake

Come fill our starving hearts
These hungry souls of ours
We wait
We wait

Open up the heavens
Pour out Your presence
We want to see revival
Bring us back to You
Oh, how we need You to
We want to see revival

We want to see revival

We want to see hearts ablaze
We want to see people changed
We want to see revival
Revival
We want to see mercy win
The hopeless to hope again
We want to see revival
Revival
We want to see lives restored
And evil to win no more
We want to see revival
Revival
We want to see miracles
Let heaven invade this world
We want to see revival
Revival

Open up the heavens
Pour out Your presence
We want to see revival
Bring us back to You

Oh, how we need You to
We want to see revival

Open up the heavens
Pour out Your presence
We want to see revival
Bring us back to You
Oh, how we need You to
We want to see revival

Oh, we want to see it
Have your way...

Open up the heavens
Pour out Your presence
We want to see revival, Jesus
Bring us back to You
Oh, how we need You to
We want to see revival
