

# Won't Stop

Chris McClarney

I'm praising on the battlefield  
I'm singing through the pain  
My God, You have delivered me  
And I know You will again  
Why would I worry  
What should I fear  
I know You're for me  
Forever with me here

You don't stop, won't stop fighting for me  
No doubt I'll see that victory  
You don't stop, won't stop fighting for me  
You're on my side, You're on my side

There is not an enemy  
You cannot overcome  
So I will walk with confidence  
Cause the war's already won

You don't stop, won't stop fighting for me  
No doubt I'll see that victory  
You don't stop, won't stop fighting for me  
You're on my side, You're on my side  
I can't hold back, no, I gotta sing  
This thankful heart is overflowing  
You don't stop, won't stop fighting for me  
You're on my side, You're on my side

You are greater, greater  
Greater than my enemies  
You are greater, greater  
You always make a way for me  
Why would I worry  
What should I fear I know You're for me  
Forever with me here
