

Summer Rain

Chris Medina

Raindrops, raindrops on your face
So familiar that old place
October nights and cloudy skies
Nothing left but your goodbyes.

Ooo ooo ooh, I miss you,
Ooo ooo ooh, really miss you

Don't want the summer over,
Let me feel the heat again,
Don't tell me that it's over,
I wanna lay in summer rain.
A thousand dreams tonight,
Wouldn't ever be the same,
As you and I making love,
In the summer rain.

Six a.m. in the twilight,
Watch the stars fade in the sky.
Pouring down but we don't care,
Running my hands through your hair.

Ooo ooo ooh, I miss you,
Ooo ooo ooh, really miss you

Don't want the summer over,
Let me feel the heat again,
Don't tell me that it's over,
I wanna lay in summer rain.
A thousand dreams tonight,
Wouldn't ever be the same,
As you and I making love,
In the summer rain.

Ooo ooo ooh, I miss you,
Ooo ooo ooh, I really miss you

Don't want the summer over,
Let me feel the heat again,
Don't tell me that it's over,
I wanna lay in summer rain.
A thousand dreams tonight,
Wouldn't ever be the same,
As you and I making love,
In the summer rain.
In the summer rain.

In the summer rain.
