

# We Try

Chris Medina

Break the mold  
Ignore the signs  
Many roads we can take while running through this lifetime  
We were told  
The wrong and right  
But we won't find the truth while walking down that straight line

So tell me why you're scared of trying this time, this time  
I think you should dream in color tonight, tonight

You can reach up for the stars  
Or wait here until they fall  
We all know life is hard  
But we try, we try, we try

We can build  
And pave the way  
Just in case you forget you know it's never too late, oh  
Down the hatch  
Enjoy the days  
Both the sour and sweet, don't let anything go to waste

So tell me why you're scared of trying this time, this time  
I think you should dream in color tonight, tonight

You can reach up for the stars  
Or wait here until they fall  
We all know life is hard  
But we try, we try, we try  
You can reach up for the stars  
Or wait here until they fall  
We all know life is hard  
But we try, we try, we try

We can reach up for the stars  
Because we all know life is hard

You can reach up for the stars  
Or wait here until they fall  
We all know life is hard  
But we try, we try, we try
