

No love in a city so cold
Where the good die young and the bad live old, I
Found you then I lost my soul
'Cause we both get high but I fall alone, yeah
Can't change, this is all I know
I don't get no sleep when I'm on my phone, so
Fuck that, I'll be on my own
'Cause we both get high but I fall alone, yeah

Baby, come through wit' your bestie
I can turn your nightmare to a wet dream
I'm a good guy but I'm not friendly
Yeah, I know she a demon but it's sexy
Too fucked up, I'm faded
Baby, I don't even know what your name is
Got tats on my face like I'm famous
But I'm a nobody, baby, I'm nameless, Goddamn

No love in a city so cold
Where the good die young and the bad live old, I
Found you then I lost my soul
'Cause we both get high but I fall alone, yeah
Can't change, this is all I know
I don't get no sleep when I'm on my phone, so
Fuck that, I'll be on my own
'Cause we both get high but I fall alone, yeah

Yeah
Falling straight from the sky
Like a shooting star
Been here a million times
But it's who we are
Thought I was manic but now I'm depression
She got her hair tied up all in my necklace
Remember everything, I won't forget this
I don't trust your texes 'cause now

No love in a city so cold
Where the good die young and the bad live old, I
Found you then I lost my soul
'Cause we both get high but I fall alone, yeah
Can't change, this is all I know
I don't get no sleep when I'm on my phone, so
Fuck that, I'll be on my own
'Cause we both get high but I fall alone, yeah
