

Here With Me Tonight

Chris Norman

Been all around the world oh I been places
And you'll never know the things I have seen
But I don't regret the good times or the bad things I have done
Or the lonely nights that happened in between

Well I try to be a good man but it just don't turn out right
And oh how I wish you were here with me tonight

I once met a man who lived his life in sorrow
I once knew a girl who lived for only love
Well I couldn't say what's coming around,
What's coming around tomorrow
I live my life by the stars and moon above

Well I'm trying to be happy but I just can't get it right
But oh how I wish you were here with me tonight

Oh I've sailed the seven seas
And I still wake up to find me on my knees

Baby you know that anything can happen
Baby I know that everything is going be alright
Been on my own so many times but now I've seen the light
And oh how I wish you were here with me tonight

Been all around the world and I met faces
Sung all the songs I heard in my hometown
No I don't regret the good times or the bad things I have done
Or the lonely nights that always bring me down

Well I try to be a good man but it just don't turn out right
And oh how I wish you were here with me tonight

Oh I've sailed the seven seas
And I still wake up to find me on my knees

Baby you know that anything can happen
Baby I know that everything is going be alright
Been on my own so many times but now I've seen the light
And oh how I wish you were here with me tonight
And oh how I wish you were here with me tonight
And oh how I wish you were here with me tonight
