

## Highest Mountain

Chris Norman

I would climb up the highest mountain  
Sail cross the seven seas  
Swim through the deepest ocean  
If you'll stay with me

I would crawl through a ring of fire  
Baby to set you free  
Walk down a hundred highways  
If you'll stay with me

Open your heart don't be afraid I won't let you down  
You know love's a broken thing, don't you  
And if you are lost out in the dark alone in a storm  
Wherever you may be you know you can count on me

I would climb up the highest mountain  
Sail cross the seven seas  
Swim through the deepest ocean  
If you'll stay with me

I would crawl through a ring of fire  
Baby to set you free  
Walk down a hundred highways  
If you'll stay with me  
You'll stay with me

Watching your face the look in your eyes it's burning my soul  
There's so much you got to give inside you  
And when you're alone where do you go inside your head  
I'll always follow you there's nothing I wouldn't do

I would climb up the highest mountain  
Sail cross the seven seas  
Swim through the deepest ocean  
If you'll stay with me

I would crawl through a ring of fire  
Baby to set you free  
Walk down a hundred highways  
If you'll stay with me  
You'll stay with me
