

Lifelines

Chris Norman

Do you remember, together forever
A long, long time, a love so blind
Still on my mind
And how're you doing, the times are moving
But I'm still the same, undying flame
Will still remain

Those days have been and gone
Oh but I still think of you
And wonder what went wrong

Lifelines are the memories
When we didn't know what was coming
And we thought that we would always be so strong
Lifelines are the melodies
While the time will keep on running
But there is so much more to come
And this journey will go on
With those lifelines

Well it's been a cold year, now that you're not here
In this silent place, I need your grace
To keep me warm
And the evening's dying, and the songbirds are flying
I hear them sing, of a promised spring
After the storm

And I guess you're looking so good
And I wish the best for you
In every way I could

Lifelines are the memories
When we didn't know what was coming
And we thought that we would always be so strong
Lifelines are the melodies
While the time will keep on running
But there is so much more to come
And this journey will go on
With those lifelines

I believe my life is like a melody
Music playing in my heart
And everything I know is just a memory
But I guess it all comes back to where we start

Lifelines are the memories
When we didn't know what was coming
And we thought that we would always be so strong
Lifelines are the melodies
While the time will keep on running
But there is so much more to come
And this journey will go on
With those lifelines
Hmm lifelines
Oh lifelines
