

Love Is...

Chris Norman

Heaven must have send you
Look at what you have done
Now, two hearts are beating
Beating just as one

Help me on feeling
It's love and memory
Made for me in heaven
I feel it once again

Everyday with you, babe
It's a day in paradise
Love will come to me
It's no surprise

Love is always like the first time
Love is thunder in my heart
Love is talking to an angel
'Cause nothing can keep us apart

Your heartbeat is a nervebeat
And now I'll be by your side
I always find the answer
Baby, in your eyes

Love you like I never
Loved someone before
Oh, my heart beats faster
I need you more and more

I always wish to love you
It's a journey to your heart
And everyday is like
A brand new start

Love is like a heart on fire
But ever and ever
I hold you here in my arms
