

Love's On Fire

Chris Norman

Don't want no fashion queen
Like the cover in a magazine
All I want is to feel your love tonight
I don't care about the clothes you wear
Some kinda bitch with electric hair
All I want is to feel your love tonight

Come on baby now it's getting hard for you you you
You want some love you gotta pay the price
You know you want it baby don't think twice

It's all right now, it's all right now
Give me love love love love's on fire
It's all right now, it's all right now
Give me love love love love's on fire

Now don't mind about the shape I'm in
My face is funny and my legs are thin
You won't regret it if you feel my love tonight
Now don't think that I'm not your kind
A crazy lover with a messed mind
I just want you to feel my love tonight

Come on baby now it's getting hard for you you you
You want some love you gotta pay the price
You know you want it baby don't think twice

It's all right now, it's all right now
Give me love love love love's on fire
It's all right now, it's all right now
Give me love love love love's on fire

Don't want no fashion queen like the cover in a magazine
All I want is to feel your love tonight

Come on baby now it's getting hard for you you you
You want some love you gotta pay the price
You know you want it baby don't think twice

It's all right now, it's all right now
Give me love love love love's on fire
It's all right now, it's all right now
Give me love love love love's on fire
Love's on fire, love's on fire
