

# Obsession

Chris Norman

Well I don't know why every time I touch you  
You make my heart react  
And when you go I never get enough of you  
I have to face the fact

That I never felt like this before  
And I want you baby more and more  
Oh I've got you running through my veins  
And it's driving me insane

Obsession , obsession, obsession

Come closer babe I wanna feel your body heat  
I wanna touch your skin  
Oh I can see you think it's only physical  
And you won't let me in

But I never felt like this before  
And I want you baby more and more  
Oh we're making love each time I dream  
And it makes me wanna scream

There ain't no help I'm in love with everything you do  
There ain't no help at all  
With a woman like you I bit off more than I can chew  
Anything you want well that's alright it's up to you
