

Cool Cool Blue

Chris Rea

Cool cool blue
Take it easy
Cool cool blue
Take it easy

Born a fighter
With a broken heart
So many time you try
You try to make a brand new start
So many tears go by
Before you realise
Well chasing too high

Will only make you cry
You got to be cool cool blue
Take it easy
You got to be cool cool blue
Take it easy

I met an angel one time
Showed me another way
She had a different kind of thinking
So I listened what she say
She say you always fighting to break free
You always crashing around
It's your own crazy dream of freedom
That's what keeps you chained and bound
Why don't you be cool cool blue
Take it easy
Cool cool blue
Take it easy

Sometimes it ain't worth what you gotta do
Sometimes it ain't worth what
you gotta put yourself through
Take it easy
Take it easy

You got to be cool cool blue
Take it easy
