

# Forever

Chris Rea

Hearing now  
The sound of the waves breaking on the shore  
Feel that sun  
Late in the day  
It's touching forever more  
You and me  
Together we should be  
You and me  
We should be together  
Forever

This place in time  
Can never be replaced  
This chance to see  
Will go without a trace  
How we really are  
Is how that we could be  
The rest is useless pain  
Let it go and you will see  
We all have plans  
But it's not because of  
We just get full of what we really need

You and me  
Together we should be  
Forever  
Forever

You and me  
Together we should be  
You and me we should be  
Together  
Forever
