

# Heaven

Chris Rea

**E**

I see a turning wheel

**C#m**

On a dusty track

**A**

Caught in the void and empty space

**D**

In between there and back

**B**

**D**

And the paradise of going somewhere

**E C#m**

That's still so far away

**A**

**D**

Happy, boy you bet I am

**B**

**D**

Holding on to this smile for just as long as I can

**E C#m**

**Heaven**

**A**

**E**

Du-di-du-du Heaven

It's all bright in front

And it's all dark behind

Living for the now that's in between the bridges  
and the signs

And getting there is still a long long way to go  
While the others dream a wish

This is everything I officially need to know

Happy, boy you bet I am

Holding on to this smile for just as long as I can

**Heaven**
