

# Nothing Left Behind

Chris Rea

I'm going way past tomorrow  
Way past yesterday  
Away from all my sorrows

'Til the chains in love fall away  
I'm gonna go so far  
'Til my sense is lose  
All trace of space and time  
Going so far ahead  
'Til there's nothing left behind

I got a big blue sky ahead  
I'm always looking for a brand new day  
The night brings the red taillights  
Feel the chains of love fall away

I'm gonna go so far  
'Til my sense is lose  
All trace of space and time  
Going so far ahead  
'Til there's nothing left behind

Gonna sit on the high wind  
Gonna let myself go  
Gonna fly 'til there's nothing  
Nothing left below  
Gonna drive through this dark night  
'Til tomorrow becomes today  
'Til the mirrors got the sunrise  
'Til the blue sky kills the grey  
'Til there's nothing left behind

Gonna go so far  
'Til my sense is lose  
All trace of space and time  
Going so far ahead  
'Til there's nothing  
Nothing left behind  
Going so far ahead  
'Til there's nothing left behind  
'Til there's nothing left behind  
Ooh, yeah
