

Nothing To Fear

Chris Rea

Am

1. I feel your heat in dusty whispers

F

The wind is cold around your moon

Dm

Em

It's getting hard to keep our distance

Am

I know your time is coming soon

Am

Don't point your dream on my horizon

F

Don't take your rose too far from home

Dm

Em

Please don't forget we're not each other

Am

Each soul has black thorns of his own

G

R: I see you dancing

Your song is clear

G

As

You've got to show me, got to show me

Am

There's nothing to fear

F

Nothing to fear

Dm Em Am

2. I have my loved ones you have yours

So let us gaze upon the feast

In God's own name let's eat together

In God's own name please come in peace

See how our children play together

While you and me we stand alone

I know we'll never be each other

If I leave you leave me alone

R: I see you dancing...

Dm Em Am
