

That's How I Know It's You

Chris Rea

When my heart skips a beat
When something moves
from my head down to my feet
When I close my eyes
And see the deep deepest blue
That's how I know
That's how I know it's you

I don't need no bell that rings
I don't need a call
I don't need no bird that sings
I don't need no spring or fall
Cos when I close my eyes
And feel a smile shining through
That's how I know
That's how I know it's you

When the storm comes in to town
It don't bother me
It used to bring me down
No it's just a rainy day
Cos when I close my eyes
And see the deep deepest blue
That's how I know
That's how I know it's you
