

# 'Til I Find My True Love's Name

Chris Rea

Ride the wind  
Ride the rain  
Steal the thunder  
Take the pain  
Keep it burning  
keep the flame  
'Til I find my true love's name

Twelve wild angels  
Sing this song  
Into forever  
They drag me on  
Lashed with leather hurricanes  
'Til I find my true love's name

This path of hailstones  
Is easy to choose  
Without a lover  
There's nothing to lose  
My wrists may bleed  
But nothing will change  
'Til I find my true love's name

Still I smile and I go on  
Let the Devil sing his fearful song  
I will not rest  
I will not be chained  
'Til i find my true  
Oh 'til I find my true  
Oh 'til I find my true love's name
