

Were Still Here

Chris Rene

So tell me what you're going through.
Sit back, Kick back when I roll with you,
And don't to many people know how special life is.
So I might just I might just show you some things is this world
that we can't afar

Those hard times that was my world.
Everybody is gonna ride the night doesn't matter if you're black or white wrong or right
and if you're not shy show your true colors doesn't matter if you are high.
Doesn't matter if you have a bad night.

Let's take a trip in and out of time
Because it's one love one life if we can live it together we'll be all right.
Everyone is gonna be alright so we had no fear.
Even though he's gone she's gone they're gone we're still here.

Everyone is gonna be alright so we had no fear, so we had no, so we had no fear.
How many times have you seen them close to you.
When they turn into a ghost to you and disappeared to the dark side.
See the black in their eye like a shark's eye.

I gotta let you know that
You ain't not home young
Mother cries because her son died on the block.
Yeah, that's the kind of pain that will never stop.
We stay strong when life falls apart like a cardboard box

Women like not to rest in peace.
We know your up in heaven kicking with the Z's.
Please lord hear the world one day at a time and let us find who we need,
Let us find who we need,
Let us find who we need to be.

Everyone is gonna be alright so we had no fear even though he's gone she's gone
They're gone we're still here.
Everyone is gonna be alright so we had no fear even though he's gone she's gone ,
They're gone we're still here.
