

## Every December

Chris Renzema

Snow is falling on the ground  
It's covering the front yard  
On the roof of my car  
It reminds me of when I was young  
Playing as a kid  
In a coat that never fit

It's what you remember  
When you are far away  
Whether we're together  
Or in a different state  
Every December  
My heart will always be  
In this place

Fire is burning in the hearth  
My mom is drinking coffee  
My cousin's watching TV  
It's not Santa on top of the house  
It's my dad shoveling ice  
So the roof won't leak tonight

It's what you remember  
When you are far away  
Whether we're together  
Or in a different state  
Every December  
My heart will always be  
In this place

It's what you remember  
When you are far away  
Whether we're together  
Or in a different state  
Every December  
My heart will always be  
In this place
