

Everybody Said

Chris Staples

Everybody said we were way too young
To be falling in love, we should just have fun
We were glowing red hot, we could not behave
Got married in the church where I first got saved

And we did not have a plan at all, it didn't matter
"We're gonna feel like this forever"

We moved into a place we could both afford
And we worked the same jobs that we had before
And for the first few years, time stood still
Yeah, we lost ourselves in Jacksonville

And we did not have a plan at all, it didn't matter
"We're gonna feel like this forever"
And we did not have a plan at all, it didn't matter
"We're gonna feel like this forever"
