

# Holy Moly

Chris Staples

Only smoked a little, how'd I get so high?  
It's wintertime in the city of rain  
I can't remember when the fire went out  
But holy moly, this place has changed

Maybe it's time we go  
Did you really think we'd stay forever?  
Maybe it's time we go  
Maybe it's time we go  
Did you really think we'd stay forever?  
Maybe it's time we go

So I waited in the car until the sky went dark  
And I climbed a fence and I wandered in Discovery Park  
And I planted a tree with the whitest bark
