

Mayflower

Chris Staples

You got the raw material
Oh you're ever gonna need
You are a mayflower just waiting in the weeds

Gonna go so far, gonna go so far
Don't worry I'm by where you are
Don't worry I'm by where you are

Waiting for a hand to reach down and pick you up
Take some sips from this golden cup
My house is narrow but my arms are wide
Got no future but I'm by your side

Gonna go so far, gonna go so far
Don't worry I'm by where you are
Don't worry I'm by where you are
Gonna go so far, gonna go so far
Don't worry I'm by where you are
