

## A Simple Song

Chris Stapleton

Lately things are on my mind  
Good news is hard to find  
And I work on the factory line  
And all I do is stay behind  
Call my mama like I should  
She says daddy ain't doing too good  
Me and him should wet a line  
Just can't seem to find the time

But I love my life  
Man it's something to see  
It's the kids and the dogs and you and me  
It's the way it's alright  
When everything goes wrong  
It's the sound of a slow simple song

I finally saved some money up  
'Til I had to fix my truck  
Talked to brother the other day  
He didn't have too much to say  
Tryna quit these cigarettes  
I can't seem to kick em yet  
Sister got laid off last fall  
And I got high cholesterol

But I love my life  
Man it's something to see  
It's the kids and the dogs and you and me  
It's the way it's alright  
When everything goes wrong  
It's the sound of a slow simple song

But I love my life  
Man it's something to see  
It's the kids and the dogs and you and me  
It's the way it's alright  
When everything goes wrong  
It's the sound of a slow simple song
