

I Want Love

Chris Stapleton

I want love, but its impossible
A man like me, so irresponsible
A man like me is dead in places
Other men feel liberated

I cant love, shot full of holes
Dont feel nothing, I just feel cold
Dont feel nothing, just old scars
Toughening up around my heart

But I want love, just a different kind
I want love, wont break me down
Wont brick me up, wont fence me in
I want a love, that dont mean a thing
Thats the love I want, I want love

I want love on my own terms
After everything Ive ever learned
Me, I carry too much baggage
Oh man Ive seen so much traffic

So bring it on, Ive been bruised
Dont give me love thats clean and smooth
Im ready for the rougher stuff
No sweet romance, Ive had enough
