

## More of You

Chris Stapleton

When I think of you and the first time we met  
And I heard the sound of your sweet gentle voice  
My heart took me over and gave me no choice  
And right then I knew

It makes me want more of you  
Again and again  
I fall more in love with you  
Than I've ever been  
From the moment you wake me up  
Till you kiss me goodnight  
Everything that you do  
It makes me want more of you

When I look at you now that years have gone by  
I think of the memories that time can't erase  
And all of the smiles that you've brought to my face  
Your love's been so true

It makes me want more of you  
Again and again  
I fall more in love with you  
Than I've ever been  
From the moment you wake me up  
Till you kiss me goodnight  
Everything that you do  
It makes me want more of you

When I leave this earth you'll be holding my hand  
And it gives me comfort to know you'll be there  
And I'll thank the Lord for the love that we share  
You're heaven to me

It makes me want more of you  
Again and again  
I fall more in love with you  
Than I've ever been  
From the moment you wake me up  
Till you kiss me goodnight  
Everything that you do  
It makes me want more of you

Everything that you do  
It makes me want more of you
