

# Together

Chris Tomlin

Every day, through the night  
Yeah, You're everywhere I go  
Every step, You are there  
In the valley of the shadow, I know  
I never walk alone not even for a minute  
Whatever I'm in I know that we're in it

Together, together  
Your mighty hands are holding me  
Together, together  
You're the God who never leaves  
When life gets hard we all need Jesus  
We fall apart and You're putting the pieces  
Together, together  
Thank You Lord, You hold all things together

Through the highs and the lows and the bends in the road  
Lord, I know whatever life brings  
You're the calm in the storm  
And I know that for my good You're working all things

Together, together  
Your mighty hands are holding me  
Together, together  
You're the God who never leaves  
When life gets hard we all need Jesus  
We fall apart and You're putting the pieces  
Together, together  
Thank You Lord, You hold all things together (Yeah)

Oh yeah, I never walk alone not even for a minute  
Whatever I'm in I know that we're in it

Together, together  
Lift your voice to the King of Kings  
Together, together  
Come on everybody sing

Together, together  
Your mighty hands are holding me (Holding me, yeah)  
Together, together  
You're the God who never leaves  
When life gets hard we all need Jesus  
We fall apart and You're putting the pieces  
Together (Together) Together (Together)  
Thank You Lord, You hold all things together (You hold all things, You hold all things)

You hold all things together, yeah  
You hold all things, You hold all things  
You hold all things together  
You hold all things, You hold all things  
Together, yeah  
You hold all things, You hold all things  
Together
