

If You're Still There

Chris Trapper

I've been staying inside
watching from the outside
My god, it's been a long time
For sure
I've been reaching from my west side
'cause it used to be my best side
now it's apparently I can't find
anymore
I wanna fly, to your side - - -
I was walking through a ghost town
and suddenly you came around
for good
And everytime you looked at me
I forget who I used to be
It was struggling all the shame of live
Unpure
I wanna fly, to your side And where we come from doors are clos
ed, and where we go and no one knows and where we are is undern
eath the stars
I close my eyes I can't detail if you're still there I'll kiss
you then and then will distribute it to the air
I wanna fly, to your side
