

# Make It Through

Chris Trapper

## Verse 1

We're at the intersection, should I laugh or should I cry  
What's it gonna be, I can barely decide  
I feel your frustration, but you keep it in your mind  
You say I lo-oo-ve you  
And we'll make it through  
We'll make it thro--oo-ough

## Verse 2

We're on a roller coasater that we never meant to ride  
We started off so slow, didn't know it went so high  
You're slipping me a smile, but I can see you're terrified  
I say I lo-oo-ve you  
And we'll make it through  
We'll make it thro--oo-ough

## Bridge

Well each time the sun comes up I'm grateful for the day  
Though you're sleeping I can't help but kiss your face  
It's quiet times in this old house when nobody's awake  
That I think of all the things I need to say

## Verse 3

Remembering the first time we lost somebody that we knew  
The sky was falling, and the birds stopped chirping too  
It's a helpless feeling, when you don't know what to do  
Just say I lo-oo-ve you  
And we'll make it through  
We'll make it thro--oo-ough

## Outro

We'll make it through  
We'll make it thro--oo-ough  
We'll make it through  
We'll make it thro--oo-ough  
We'll make it through  
We'll make it thro--oo-ough  
We'll make it through
