

## Black Rocks

Chris Travis

Ion ever wanna hear you say a nigga name  
Fuck light  
I'ma let the dark rain  
Fuck nights  
You ain't never felt my pain  
But these lame ass nigga's always steppin' in my lane  
Still the same young nigga  
Dick hang no chains  
So you ain't gon take shit from me bitch  
Finna left em dead  
Bitch I'm right  
Standin' to till my blunt not lit  
See a nigga slidin'  
Doin' 80 on horizon  
80 blunts and I hold up  
Man my life timeless  
Yes you rewind it  
Yes you hypnotize shit  
Baby come ride this, if you about it  
I'mma hurt'cha body, don't tell nobody  
I'm somebody, nigga's look up to  
Even rat nigga's, that you look up to  
Knowing what he up to, knowing I'ma above you

She done hit me up right?  
She wanna fuck right?  
She gimmie head like...  
Bed bug bites

She hit me up right?  
She wanna fuck right?  
She gimmie head like...  
Bed bug bites

She know  
I'm forever hot  
I'm so on fire like the block  
I know, what I get and I got so  
Better take in what you got  
She know I'm hot like the block  
I'm so on fire black rocks  
I know what she want and she got  
So better take in what you got
