You know what it take to get some money
I know what it take to get some money
Shawty hit me up she said she lonely
Pull up to the spot and come alone please
You know what it take to get some money
I know what it take to get some money
Shawty hit me up she said she lonely
Pull up to the spot and come alone please

I be causing havoc, straight stunting
'Cause I know what it take to get some money
[?] ass nigga don't approach me
I be high as fuck, like the nosebleed
Motherfuck a label can't control me
Running this shit up with my whole team
Baby girl think she can control me
Baby you can't even fucking hold me

You know what it take to get some money
I know what it take to get some money
Shawty hit me up she said she lonely
Pull up to the spot and come alone please
You know what it take to get some money
I know what it take to get some money
Shawty hit me up she said she lonely
Pull up to the spot and come alone please
