

## PH 15

Chris Travis

(Kenshin on the fuckin' beat, yuh)

Eenie meenie minie moe  
Catch a hoe like a cold  
If she at the club - don't trust her (Uh)  
Sticking to the code, keep her ass from my folks  
Got some new shit straight in from Russia  
Niggas wanna know, man they really wanna know  
How the fuck you do it, mane? Keep hustlin'...  
She don't even know that she know who I am  
Why the fuck this bitch keep blushing?

Water I drink like a boat Titanic  
PH high, bitch my dick organic  
Born up in Memphis, probably at the botanic  
Bitch got mad, cause I wasn't romantic  
Like [?] made a snap then I vanished  
I get over slopes like I mastered mathematics  
How you grow up just to be a dope addict?  
I don't give a fuck man, we all get damaged

It's not a story, my life is not Maury  
The verse I'm recorded, I never told stories  
Immerciful aliens cave in and caving in  
The most and favorites, the best and the latest shit  
I don't need favorites, so you can save it bitch  
Give me companionship, please do not damage it  
Hold up this [?]

Boy yo' shit past tense, that shit be average  
Go at the masses  
Then let them have it  
Life, you imagine  
Your eyes be flashing  
Time for the dragon  
Come down, unlatch it
