

Slow It Down (Interlude)

Chris Travis

She wanna slow it down [x14]

I'm cruising through your town
You see me shawty now
I love the way you frown
I love the way you smile
Don't come up to me now
You niggas all fake
Ya'll lookin at me now

I jump her from the back
I hit it from the back
She be up on the shit
I be up on the past
I be smokin that sack
I be chokin the pack
I be loaftin the pack
I be loafing like that

She wanna slow it down [x14]
