Seasons

Chris Wallace

Out of all the other people on this planet
You had to have it, every thing that I want

Your mind is always changing like the seasons
Without a reason, I'mma wait out the storm

Rain, rain, go away, come again another day
Rain, rain, go away and leave the sunshine

Fall fall fall and I will catch you I am right behind you
Always knew I'd fall in love with you
Fall fall and I will catch you I am right behind you
Always knew I'd fall fall fall for you

In a corner booth at Eveleigh on Sunset, I swear I knew then
Cause my heart stood still, and I haven't been the same since

Even though winter is freezing
I'm gonna keep on believing
We'll get though all of the seasons (yeah)

Rain, rain, go away, come again another day
Rain, rain, go away and leave the sunshine

Fall fall fall and I will catch you I am right behind you
Always knew I'd fall in love with you
Fall fall and I will catch you I am right behind you
Always knew I'd fall fall fall for you

Rain, rain, go away, come again another day
Rain, rain, go away and leave the sunshine

Rain, rain, go away, come again another day
Rain, rain, go away and leave the sunshine

Fall fall fall and I will catch you I am right behind you
Always knew I'd fall in love with you
Fall fall and I will catch you I am right behind you
Always knew I'd fall fall fall for you
