

# Cabin Fever

Chris Webby

Yeah

Man, this year is fucking killing me  
Being trapped in this fucking house?  
I'm losing it

Stab myself in the neck to see how quick I bleed out (ow)  
That's how I bored I been in quarantine stuck in a fucking house  
Good thing I got a pound of drugs up under the couch  
If I didn't, shit, I woulda lost my mind by now (yeah)  
So bored that I stapled my own dick to the floor (ooh)  
Just to see what would happen (fuck) and I can't piss anymore  
So my bladder backed up and exploded up in my body (ugh)  
But I picked up surgery as my quarantine hobby (haha)  
So I managed to tape it up and stapled it shut  
And rerouted my urethra, now I pee through my butt  
Webby, seriously dog, like what the fuck?  
My bad, I'm on drugs, I'm just making this up (true)  
I went MILF hunting at Whole Foods with whole plans  
Hadn't gotten laid in weeks, I was ready to go ham  
Tried to fuck a cougar but settled for roast ham  
And by that I mean, actually fucking a roast ham  
I put on a Trojan and grabbed it with both hands (oh yeah)  
And lubed that bitch up with a can of cold spam (ugh)  
Gave it a few thrusts (ugh), got a quick nut  
Till they called the pigs up (oh shit), then I just zipped up and I ran (ske  
daddle)  
Now that's a triple pork entendre  
Probably got like eighty seven baby mommas (yeah), that's why  
I will always stay changing my numbers (who's my dad)  
Mmh, nah, I'll just let him wonder, kinda kidding  
But what's a future with some kids in my plans?  
I mean, our only common interest is shitting our pants and sucking our tits  
And regularly having women wiping down and touching our dicks  
(Yo, you bugging for this)  
I went on the dark web drunk the other night  
And woke up with a brand new Ukrainian wife  
Gotta be honest, at first, shit was pretty uncomfortable  
So I loosened her up with that classic Cliff Huxtable (here, drink this)  
That's a roofie joke, that's cool in 2020, right? (Right?)  
No? I'm just tryna keep it light (oh shit)  
But it's hard to read the room, shit I got terrible sight  
Can I at least make jokes about transvestites  
Or would that make me a dick, get it? Make me a dick (haha)  
And all these uptight buttholes are making me sick (fuck you)  
I'm in the gender neutral bathroom taking a shit  
Door open, sitting there waving and shit (hi)  
Like hi kids, do you like sirens?  
Hang around with me enough, you'll see police officers and firemen  
Following me driving, swerving till they piling  
On top of each other as I just speed away smiling (yeah)  
'Cause Webby so ridiculous, crazy as a bitter bitch  
That I haven't texted back since I gave her syphilis (fuck you, Chris)  
And gonorrhea, I ain't know I was infected  
But it's all good, at least I've been coronavirus tested (true)  
Swabbed on my dick, then I went and post-marked it  
Priority mail, right to the Wuhan market  
Pretty sure I'll pass, I've been wearing a mask

And been healthy on a diet, eating nothing but bat (delicious)  
On my Ozzy Osbourne, just a child of the corn  
They mistook me for some kinda devil that's in human form  
Till I bleached my red skin and I sawed off my horns, 'cause  
All I do is sin, take drugs, and watch porn  
Got a Craigslist hooker just to talk to her  
Thought it would be chill, but nothing coulda been awkwarder  
All I needed was someone to listen to what I said  
"Get a therapist!", she told me, while giving me head  
Yeah, I got a lotta problems but I never let 'em get to me  
Fart on elevators and I blame the woman next to me (gross)  
All for gender equality as long as that includes  
A bitch doing my laundry and getting my dishes washed for me  
Honestly, I'm just motherfucking kicking up dust  
Just to do it, so you can go and lick on my nuts  
You can find me all high in my car getting puffed  
Either there or at the dog park sniffing butts  
Yeah, I'm frigging nuts, do you not get it? (Get it)  
Shit, I always was, then you add a pandemic  
When I'm locked in the crib with mad pills, free time, and no chill  
But fuck it, we going crazier still, now here's a hook, so

Follow my lead and do what I do (come on)  
Snort a buncha cocaine and run around nude (yeah)  
Jump in the gorilla enclosure up at the zoo (do it)  
You show up, black out to your work interview, so  
Follow my lead and say what I say (say it)  
Piss off any and everybody that's in the way (fuck it)  
Who gives a fuck? Shit, the world is ending any day  
Shit, I forgot to write a last line, fuck it
