

## Call on Me

Chris Webby

Pardon me when I pull up with a small army  
Better drink up cause bars on me  
We be going all night till the stars get bright  
And the moon light falls on me  
Universe and harmony  
Vibe so right bet it all on me  
Wanna have a good time  
Then call the landline yeah it's fine you can call on me

You can call on me ain't no call waiting  
Imma pick up first ring on my land line  
Headed down to the keys with a pretty young thing with them tight ripped jeans showing tan lines  
And I ain't worried about nothing  
You can hit me on the wifi  
Send that location I'm coming  
I'll hit your hot spot girl you know I give it to you like that  
You can see them three dots when I write back  
You know its simple as similar to a light snack when I bite that let me be your night cap girl you can call me in the night man  
If its chaotic, I got it baby I'm right there  
Call me young Star-Lord flying though the cosmos but I got my iPhone just in case you call on me  
You can put it all on me lil mama  
I think it just dawned on me that I wanna take this night to the limit I know you like it, admit it  
So baby you just gotta dial the digits and meet me at the Bodega Imma pop a bottle and some papers  
And we can get lost, take a flight to Malaysia  
Call on me I got unlimited data  
I'll be as quick as Sonic on my Sega

Pardon me when I pull up with a small army  
Better drink up cause bars on me  
We be going all night till the stars get bright  
And the moon light falls on me  
Universe and harmony  
Vibe so right bet it all on me  
Wanna have a good time  
Then call the landline yeah it's fine you can call on me  
Baby you can call on me  
Call on me  
Listen baby you can call on me

You can call on me ain't no call waiting  
Imma pick up first ring on my land line  
She about 5'3" with them tattoo sleeves and her eyes on me looking damn fine  
We got no need for discussion yeah we always on the same page  
I just give her that McLovin feel like we been in the bed for days  
Got a bitty in the city who be riding with me  
Lil modern hippy rolling sticky till she got me dizzy  
You can parle with me 'bout the world baby  
I don't really think I ever met no one like you in my life  
She beautiful, tight and smart the Miss Universe type  
And I just hope that I'm maneuvering right  
So uh, hey ma, let's ride alright baby yeah listen we gonna get it on tonight

You can meet me in the bedroom  
Or that black muscle car with the leg room  
On the coast line she my Ariel on the beach  
Thick as Jessica Rabbit but she the Belle to my Beast  
My Lola Bunny on the court hitting all 3's  
Or my Jasmine heir to the throne that I seek  
Fa Mulan on the battle field  
Nala to my pride  
No surprise that I got you on my mind

Pardon me when I pull up with a small army  
Better drink up cause bars on me  
We be going all night till the stars get bright  
And the moon light falls on me  
Universe and harmony  
Vibe so right bet it all on me  
Wanna have a good time  
Then call the landline yeah it's fine you can call on me  
Baby you can call on me  
Call on me  
Listen baby you can call on me
