

Euphoria

Chris Webby

Need a sedative for my mind, yeah, break me up a line
Guess I'm just a product of the fuckin' times, yeah
Someone hit rewind, back to when this life was just a little simpler
Now I'm livin' in these new perimeters, like a prisoner
Lookin' back at what it used to be 'cause this ain't even similar
I'm feelin' like I came in at the end
Of the fuckin' world as we knew it so when is someone gonna pinch me
Fuckin' wake me up, or are we really stuck?
I just can't comprehend
Shit, as technology has taken over while the ones in power got us on a choke
r
Losin' human rights and losin' my composure
And you people wonder why I'm never sober?
I can't even tell what's real anymore
Fake world gettin' faker quicker
Bunch of fake people from the lip filler to the fuckin' filter that be on th
e picture
Where the fuck is God? Why he let the Devil win?
Or is this purgatory that we've settled in?
Cool it Webby, you're just in your head again
You'll feel better when you take your medicine

'Cause I been feelin' so damn numb, it's hypnotic
If I'm honest, I don't know how to get off it
I'm feelin' so high, that I couldn't come down if I wanted
When I'm on it, see the edge and go beyond it
I'm lost in euphoria, yeah
I don't wanna come back down
I don't wanna come back down
I'm lost in euphoria, yeah
I don't wanna come back down
I don't wanna come back down

Need a sedative for my brain, yeah
Life been feelin' strange
Doctor give me just a little Novacaine, yeah
Don't wanna feel the same
I just need a lil' somethin' for the stress
As we all descend into this fuckin' mess of a reality
They all be tellin' me, it's got me anxiety ridden and depressed
All they see is pill bottles and the smoke
I just see it as a way that I could cope
Hard to keep hope when we got a rope
Tied in a noose, right around the throat
Shit is fittin' snug too but it's straight
Because what these drugs do help abate
All the fuckin' weight on my breast plate
I don't really know how much more I can take
So just find me somethin' that gon' have me feelin' better
Keep it sunny for me through the shitty weather
When the storm is comin' put me in the center
When my medicine won't even feel the pressure
'Til it wears off and I'm clear in a world that I don't wanna be near
Crush another line, make it disappear, yeah
Ain't no sunshine 'round here because

I been feelin' so damn numb, it's hypnotic

If I'm honest, I don't know how to get off it
I'm feelin' so high, that I couldn't come down if I wanted
When I'm on it, see the edge and go beyond it
I'm lost in euphoria, yeah
I don't wanna come back down
I don't wanna come back down
I'm lost in euphoria, yeah
I don't wanna come back down
I don't wanna come back down

I'm lost in euphoria, yeah
