

Lights Out

Chris Webby

See I'ma tie you to the bedpost
Grab around your neck, choke
I'll tell you the safe word
You best not forget though
Tie you to the bedpost
Do it cause I said so
So come and step into my world, baby let's go

Let's do a little experiment, me and you though
So leave your panties by the door where your shoes go
Girl you colder than the weather on Pluto
So I'ma take my time on you baby, let's move slow
Master and commander I'll handle you how you wanna be handled
Gentle or rough I'm try'na set an example
So just tell me all thoughts that you got running through your dirty mind
The ones you never share, well this the perfect time
You could be my valentine, be my Vicki Vallencourt
Grab around your neck and go to town until your back is sore
Once you get a taste of Webby, baby, you gon' ask for more
I'm what you'll develop a pallet for, take it back and forth
Lick you from your head to your toes
And I just wanna follow you wherever you go
Like I'm Pepe Le Pew, just me and you on the road
Do it to you, I wanna get to do it to you I know
You be thinking that I'm Chris Grey, grab around your ribcage
Give it to you any which way, switch places
Now let me paint a scarlet letter on these double d's
I'ma show you there's two meanings to the statement "Come with me"
Let me demonstrate, see we can fuck against the wall and get the bed to break
Never hesitate
All I'm saying's baby if you give it to me, I'll give it to you
And I know you want it too

Baby when the lights go out
Just let me show you how I do
You might learn a thing or two
Baby when the lights go out
Just let me show you how I do
When I do these things to you

You talking crazy, you talking bout' let's go get ahead
Let me take off my necklace before I hit the bead
See this devious, it's hitting different
I'm switching positions, I'll have you lifted I bet you dripping and seeing red
Now baby you say you get it wetter than me
I'm a freak on the web and a freak in the sheets
A freak is a freak
You want a lady, hit a petite
My sex is unique
See I'm a bitch, your girl is too sweet
You wanna drill me like your dentist, I know you good with anatomy
Tell me open wide, then fill me in like a cavity
The sex is always good but better when you get out of these
So tie me up and spank me cause we defying all gravity
And we can roll-play while we listen to Coldplay

Watch me rotate, pop open some Rosé
Homie it's foreplay we can make some harissy
You be Ron Jeremy, I'ma be with the Hennessy
Whip some change, flip the game
Get some brain, smoke the L then give the same
The pleasure's pain
You know you got me
When I say 6-9 I ain't talking Tekashi
And by the way I look great with the lights on
But it's getting late, some come and give me the python
Baby if you give it to me, I'll give it to you
And I know you want it too

Baby when the lights go out
Just let me show you how I do
You might learn a thing or two
Baby when the lights go out
Just let me show you how I do
When I do these things to you

When the lights go out
When the lights go
When the lights go
When the lights go out
When the lights go
When the lights go out
When the lights go
When the lights go out
When the lights go
When the lights go out
