

# Long Way

Chris Webby

Sometimes I just feel like I suck at life  
Started last year and the depression with my money tight  
Then I said fuck it, hit the gas and started running lights  
Reinvigorated all my fans by droppin' fuckin' twice as much shit as I did the year before and kept it comin' like  
Every single week and went at everyone in fuckin' sight  
I just bottled up my raw thoughts up on this fuckin' mic  
Said fuck these rappers and the rappers that they mumble like  
Yeah, I went on sway and killed the game and got a ton of likes  
Still they just compare me to shady so I'm just fuckin' like  
Well, he's debatebly the greatest so basically what your tryna' say to me is  
I'm fuckin' nice  
But I'm my own man, my own MC  
Who handed mix tapes to cats when I sold them tree  
Yeah I've had a long run still ain't lost no steam  
I'm still rackin' up streams I just do it low-key  
I don't even have a manager I own my own masters  
See I'm my own master more than a dope rapper  
Been a long road, there's a of closed chapters  
But I made a promise to myself to never go backwards  
I been underrated so fuckin' long that I'm sick of it  
It keeps me lashin' out at anybody in my vision shit  
I'll add another name to my list if we gon' get into it  
Wrap my hands around your neck so you can come to grips with it  
Made a name takin' shots, Donald Trump is sick of me  
And crooked Hillary just put a seven figure hit on me  
Lil Xan is wishin' that he never said shit to me  
And everyone I haven't mentioned yet is sittin' timidly  
I came to bring the pain spinnin' webs in your brain  
Study the arts of Wu-Tang  
I ain't goin' anywhere like the Cabernet stain  
With that audio dope to your veins

I came a long way  
Ain't no doubt about it I came a long way  
Saw them take the route but I took the long way  
Dancin' to the beat of my own drum  
I came along, I came along, I came along  
I came a long way (yellin' danger, I'm run-I'm ?)  
I came a long way (I'm a glacier, too cold for the majors)  
I came a long way (It's my nature, bout to show them what I'm made of)  
I came a long, I came a long, I came a long, I came a long, I came a long

Y'all know I'm comin' when you hear my medication rattle  
Mad disorders dealin' with them all's a daily battle  
But don't confuse that with thinkin' my fuckin' brain is fragile  
Cause this shit got so many words in it that I'm playin scrabble  
And my fuckin' dreams with a scheme that'll leave your cages rattled, this real rap straight facts got a case of Snapple  
The Judge and Jury of your face so let me raise the gavel  
An arsonist I got y'all leavin' here on blazing saddles  
I'm here to break all these soft snowflakes  
With all their Twitter hot cakes but won't show no face  
Everyone with they opinions that don't hold no weight  
This whole world gone pussy but I won't slow pace  
Everyone's an influencer or a YouTube star with no talent  
And no reason to know who you are

Do you hear me Jake and Logan Paul?  
I'll inject them with a Michael Jackson dosage of propofol until their dozin  
' off  
I've fuckin' had it with everybody this shit disgusts me  
I thought that rap was at it's lowest when y'all hit the dougie  
But now it's worse everybody soundin' really rusty  
I gotta listen to myself cause there's no shit to study  
My competition's supposed to inspire me  
But y'all suck so fuckin' bad gotta listen to my CD  
Shit I don't mean all of 'em but let's be honest  
I'm one of the hottest, best in the burbs and I still got it  
Louis CK, I'm feelin' myself, I'm here for the belt  
My adversaries fear for their health  
Because I never gave a fuck about appearance and wealth  
I put bars over everything you'll hear for yourself  
Every time you put my shit on, these beats I never miss on  
And when I'm Dead and Gone just know these words are gonna live on  
The same kid they picked on is now who they click on  
So suck the same dick I told Ted Cruz to sit on

I came a long way  
Ain't no doubt about it I came a long way  
Saw them take the route but I took the long way  
Dancin' to the beat of my own drum  
I came along, I came along, I came along  
I came a long way (yellin' danger, I'm run, I'm [?])  
I came a long way (I'm a glacier, too cold for the majors)  
I came a long way (It's my nature, bout to show them what I'm made of)  
I came a long, I came a long, I came a long, I came a long, I came a long wa
