

# On the Run

Running

Started at the bottom at hunger but got nothing  
Told 'em I would get to the finish, I'm not bluffing  
There wasn't a day since then I stopped hustling  
The pot's bubbling, my stock's doubling  
Shoes hit the pavement and everything in view's for the taking  
Hit with a boom, the room shaking  
Moves that I make and the record's set soon that I'm breaking  
Show 'em the truth, I'm through waiting, rock it  
Disregard traffic signs, I'm not stopping  
Only way to pass the time that I've gotten  
And they all a lap behind while I'm jogging  
No other option, they all watch it  
Dead or alive, I'ma get to the prize  
My competition better go hide or get a disguise  
When all my methods applied and they met their demise  
Baby you gon' feel the temperature rise, so keep running

I'm living on the run  
Make my living on the run  
No forgiveness for my sins  
It makes no difference on the run  
I'm on the run  
I'm on the run, on the run  
I'm on the run  
I'm not slowing down  
I'm not slowing down

Move it  
Worked too hard for this, I'm not losing  
How many points by now have I proven?  
Till somebody give me a shot, won't stop shooting  
My evolution is not human  
At my lowest, still I stayed focused  
Oh, this hopeless prognosis make most  
Just hang it up while I took loss and doses  
So large, it's a miracle I'm here to show it, no brakes  
Stepping on the track to win the whole race  
No matter what lap I'm in, I won't wait  
'Cause I miss a hundred percent of shots I don't take  
When I load up the chamber the whole place better  
Hit the floor before I kick the door down  
With a .44 with more rounds than a  
Merry-go, there he go, stereo sound  
'Bout to burn this whole place to the ground, bow

I'm living on the run  
Make my living on the run  
No forgiveness for my sins  
It makes no difference on the run  
I'm on the run  
I'm on the run, on the run  
I'm on the run  
I'm not slowing down  
I'm not slowing down

I'm living on the run

Make my living on the run  
No forgiveness for my sins  
It makes no difference on the run  
I'm on the run  
I'm on the run, on the run  
I'm on the run  
I'm not slowing down  
I'm not slowing down
