

# Power Down

Chris Whitley

Down, down, down  
All is revealed when you hit the ground  
Miss Amelia, where are you now?  
Isolation up in the clouds

Could be time to power down  
Down, down, down  
No one here, nowhere's around  
?Round and ?round  
Could be time to power down  
Down, down, down

Emiliano, where are you now?  
Alien nation in a middle of town

Could be time to power down  
Down, down, down  
No one here, nowhere around  
?Round and ?round  
Could be time to power down  
Down, down, down

Down, down, down, down  
'Cuz only one thing can power me down

She got engine in her eyes  
She got a throttle that she cannot disguise  
All is revealed when you hit the ground

Could be time to power down  
Down, down, down  
No one here, nowhere's around  
?Round and ?round  
Could be time to power down  
Down, down, down

Could be time to power down  
Down, down, down  
Down, down, down, down  
Down, down, down, down
