

## Tomorrow Can Wait

Chris Willis

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
Stuck inside a box, you gotta get out!  
Stand up, get up, live your life now come on!

Stand up, get up! Come on, yeah yeah yeah! Come on, come on!

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
Stuck inside a box, you gotta get out!  
Stand up, get up, live your life now come on!

Stand up, get up, let's go right now!

People lining through this life we lead, never knowing what we  
'll find out  
So we living, working, and waiting for the day  
There'll be something that's coming to take the pain away  
And we wait for nothing inside your ways  
You gotta let that fun girl through!

Live life given now, tomorrow can wait  
Dance all through the night, sleeping all day  
Stuck inside a box, you gotta get out!  
Stand up, get up, live your life now come on!

Sometimes it feels \*hollow, empty\*  
And when just floating searching infinity, infinity, infinity,  
infinity

Come on and dance here tonight, tomorrow can wait  
Dance all through the night, sleeping through day  
Stuck inside a box, you gotta get out!  
Stand up, get up, live your life now come on!
