

Brake Lights

Chris Young

I wish you would've lost your keys
Never put that thing in drive
I wish I hadn't said those things
And put the hurt there in your eyes

There's nothing broken here that we can't fix
But apologies and highways just don't mix

Give me that slow-down sound of the gravel
Sign that you can't let go
Throw them reins on down from that saddle
Bring that Mustang home
Give me that look back in the rearview
Like you know you just can't say goodbye
It's all that I need, I just want to see
Those don't-make-my-heart-brake lights
Don't make my heart, don't make my heart
Don't-make-my-heart-brake lights

Hey God, hey Chevrolet
I'm on my knees right here
I know I made a big mistake
I need one answered prayer

Give me that slow-down sound of the gravel
Sign that you can't let go
Throw them reins on down from that saddle
Bring that Mustang home
Give me that look back in the rearview
Like you know you just can't say goodbye
It's all that I need, I just want to see
Those don't-make-my-heart-brake lights
Don't make my heart, don't make my heart
Don't-make-my-heart-brake lights
Don't make my heart, don't make my heart
Don't-make-my-heart-brake lights

There's nothing broken here that we can't fix
But apologies and highways just don't mix

Give me that slow-down sound of the gravel
Sign that you can't let go
Throw them reins on down from that saddle
Bring that Mustang home
Give me that look back in the rearview
Like you know you just can't say goodbye
It's all that I need, I just want to see
Those don't-make-my-heart-brake lights
Don't make my heart, don't make my heart
Don't-make-my-heart-brake lights
Don't make my heart, don't make my heart
Don't-make-my-heart-brake lights
