

## Fall Out

Chris Young

First, you meet out at a whiskey bar  
Then you're makin' out in the back of a car  
Then you meet her friends and her family  
And your heart is beatin' faster than the speed of sound  
As you're on one knee one day  
Sayin' three words you thought you'd never say  
You know in that moment that you're all in  
That's how you fall in

But how do you fall out?  
How do you tell your heart, "Don't break"?  
How do you not care  
Whenever someone says her name?  
How do you rewind back to the good times  
Act like she didn't mean so much?  
I know how to fall in, but how do you fall out  
Fall out of love?

First, you see her out with somebody new  
And it messes with your head 'cause it isn't you  
End up at a bar with all your friends  
But you feel alone  
And you're wonderin'

How do you fall out?  
How do you tell your heart, "Don't break"?  
How do you not care  
Whenever someone says her name?  
How do you rewind back to the good times  
Act like she didn't mean so much?  
I know how to fall in, but how do you fall out  
Fall out of love?  
Fall out of love

I don't wanna move on faster  
I just wish that I could ask her

How do you fall out?  
How do you tell your heart, "Don't break"?  
How do you not care  
Whenever someone says her name?  
How do you rewind back to the good times  
Act like she didn't mean so much?  
I know how to fall in, but how do you fall out  
Fall out of love?
