

# Million Miles

Chris Young

Yeah, I drink whiskey somewhere new  
Some bar where they don't know about you  
I've been out on a couple dates  
Just hopin' to feel anything  
I thought I didn't need you  
Thought I needed space  
I hated breakin' your heart to see I made a big mistake

I took that over you  
Rode as far as it would take me  
But every turn led me back to your love  
There ain't a place where I can outrun you, baby  
A million miles ain't far enough

The smallest things can trigger me  
And I'm hit by your memory  
Some band covers our favorite song  
And I'm gone  
Just thinkin' 'bout you all night long

I took that over you  
Rode as far as it would take me  
But every turn led me back to your love  
There ain't a place where I can outrun you, baby  
A million miles ain't far enough, no  
It ain't far enough

I thought I didn't need you  
Thought I needed space  
I hated breakin' your heart to see I made a big mistake

I took that over you  
Rode as far as it would take me  
But every turn led me back to your love  
There ain't a place where I can outrun you, baby  
A million miles ain't far enough

A million miles ain't, a million miles ain't  
A million miles  
A million miles ain't far enough  
Yeah, ain't far enough  
A million miles ain't, a million miles ain't  
A million miles ain't far enough
