

Some Around Here

Chris Young

We all get a little crazy
When work's breakin' your back
Want a little less fast pace
And a little more ballcap
You can have a rope swing
Cricket choir singin' if you need that

There's always some around here
Got a couple hit songs on the stereo
When the paycheck clears
We get a tank of gas and away we go
If you're lookin' for a bonfire, starlight, dirt road, good time, Friday night
There's always some around here

If you're lookin' for some midnight
Little dive bar with a cover band
Lookin' for some all right, all right
Laid-back McConaughey kinda friends
Makin' those memories, don't even know it
Yeah, I can show ya

There's always some around here
Got a couple hit songs on the stereo
When the paycheck clears
We get a tank of gas and away we go
If you're lookin' for a bonfire, starlight, dirt road, good time, Friday night
There's always some around here

There's always some around here

Long days need long nights
Maybe slow dance and you know
Truck beds turned to dance floors
Come on, let's go

There's always some around here
Got a couple hit songs on the stereo
When the paycheck clears
We get a tank of gas and away we go
If you're lookin' for a bonfire, starlight, dirt road, good time, Friday night
There's always some around here
There's always some around here

Yeah, there's always some around here
