

Go Up

Chrisette Michele

May I have a word
[?] I dare to be heard
My black is just as black as yours is
(Just as black as yours is)
I've been to the light
While the fires ignite
My dream is just as burned as yours is
(Just as burned as yours is)

You think you're all alone
Standing with the signs
You think you're all alone
But yes I'm with my mind
And I'm just as broken
Just as broken

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

I don't mind the fight
Don't might the ride
Different roads, one destination
(Roads, one destination)
We can compare our hue
What they do to me is you
You cry and I cry too
(You cry and I cry too)

You think you're all alone
Standing with the signs
You think you're all alone
But yes I'm with my mind
And I'm just as broken
I'm just as broken

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

Why would you separate us
They see one sea of lovers
You go high, lift us all up
Different roads take us alive

(Keep pushing)
Keep living (Keep living)
Keep dreaming (Keep dreaming)
Keep giving (Keep giving)

If you still hear the dreams, not over yet
If you still hear the dreams, not over yet

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I

When I go up, you go up with your eyes
One drop, you go up, up and there go I
There go I, there go I, there go I
