

I have an idea
Let's head to Vegas like in movies
Have no fear
[?] is better than movies
Let's not [?]
So far my life is a movie
I'll wear white there
And kiss you and say I do
Let's keep a secret, you and me
Let's love forever, happily
They'll never notice you and me
And they guess

Gotta find a man
To stand at the end of a landmark
And say a prayer
And read a word from our light
No photographs
Just evidence in our heart
Just now and here
One kiss to say forever

Let's keep a secret, you and me
Let's love forever happily
They'll never notice you and me
In Vegas

I'll have to call back home
Tell them we're here alone
Asking to have my hand
[?]

Let's keep a secret, you and me
Let's love forever happily
They'll never notice you and me
In Vegas
