

Don't Leave Me

Chrishan

Don't leave me
It's like one way ticket
It ended, it ended
It's like I love my heart over stage
Like I get to cruel beaded
... days
Together I could have gave everything
I would have... everything with you
Whatever ever got to understand
Now I'm taking your hand
Why are you at the door
Why you wanna leave
It I give up everything would you stay with me
I don't know where to go
This... it's so cold
So why you wanna leave my heart on the floor?
Don't leave

Don't leave me
It's like a...
Ripping up the picture
Something is wrong and I just can't feel
I tried to be the best man
Do the best I can
I give you everything you need
That's why I can't see baby
I thought we was forever
... upon me baby
I can't stand see you walking out the door
Baby don't leave me
Fellows if you got a girl
Which means the whole world say:
Don't leave me
Ladies if you got a man
And he don't understand
Don't leave me
