

Down in My City

Chrishan

Like 45's, 45 girl my mind just keeps spinning, yeah
Who's gone take my place when you're finished
Who's bed is it if I'm not in it
I would love to think we'd be starry eyed, starry eyed
Even when the night's ended
But I know how to take what I'm given
You don't gotta ask me I get it
You don't gotta ask

So can you stay one more to be certain
None of this turns into what if
You know I'm fucking with you right or wrong
It's deeper than a song, yeah

I said I can't make it easy
If it ain't easy
And I can't make you stay
If you wanna leave me
You know what they call me
Down in my city
Know my love can be found when you need it
I give you something to believe in
Believe in

Should be on my side
You need somebody with lovin' I can provide
But, you got some feelings that you'd rather keep inside
It's crazy to think that you fake it
Like you're keeping your gun on a safety
Knowing if you got hurt you would blame me
Blame
Oh yeah

So can you stay one more to be certain
None of this turns into what if
You know I'm fucking with you right or wrong
It's deeper than a song, yeah

I said I can't make it easy
If it ain't easy
And I can't make you stay
If you wanna leave me
You know what they call me
Down in my city
Know my love can be found when you need it
I give you something to believe in
Believe in, yeah
